### [3] New Update

The Gradebook and IP Gradebook has be updated. There are many new features included in this update.

The Edit Assessments for a Course or Grade, and Edit Assessments for a Student pages have been updated. These screens are now resizable to view Standards or Benchmarks that are too long to fit on the original screen size. Resize by clicking on the lower right hand corner of the screen. The screen will default to an "All Standards" choice which allows you to see all of the Standards and corresponding Benchmarks. Also, previous assessments can be now seen to the left of the current grading area.

In the Preferences window an option was added to Include Exams in Course Menus. If you don't record term exam grades please turn this option off to remove exams from popup menus.
